

# CLIMATE CHANGE DECEPTION

TWO GRAPHS THAT REVEAL  
THE INTENTIONAL DECEPTION

# 1990 ORIGINAL GRAPH

**Figure 7.1:** Schematic diagrams of global temperature variations since the Pleistocene on three time scales (a) the last million years (b) the last ten thousand years and (c) the last thousand years. The dotted line nominally represents conditions near the beginning of the twentieth century.

# 2001 MANN HOCKEY STICK GRAPH

**Figure 2.20:** Millennial Northern Hemisphere (NH) temperature reconstruction (blue) and instrumental data (red) from AD 1000 to 1999, adapted from Mann *et al.* (1999). Smoother version of NH series (black), linear trend from AD 1000 to 1850 (purple-dashed) and two standard error limits (grey shaded) are shown.

The original 1990 graph of the historical record included the Medieval warm period and the Little Ice Age.

In the 2001 report, Michael Mann included only manipulated data which eliminated the Medieval warm period and the Little Ice Age in order to show a relative straight line up until the present when it increased significantly to give it the appearance of a hockey stick.

The previous report contradicts the later report which proves they manipulated the data.

Their own reports prove that they are not scientists looking for the truth, but are ideologues that are willing to lie to the public and manipulate data in order to achieve their political ends.
